H & D Tallow Co.

Face Tallow Ingredients

Beef Tallow

- Beef Tallow is **rich in fatty acids which closely resemble the natural oils found in our skin** and makes for an amazing moisturizer.

- Beef Tallow contains **anti-inflammatory compounds that help soothe and reduce redness**. This is beneficial for sensitive skin and/or irritated skin conditions.

- Beef Tallow offers **antioxidant protection**. Tallow is a **great source of vitamins A, D, and E** which help protect the skin from free radical damage.

- Beef Tallow is known to **improve elasticity** which reduces signs of fine lines and wrinkles.

- Beef Tallow has been known to **reduce acne**. Tallow is **low comedogenic** which means it is not likely to clog pores and can help regulate oil production and reduce breakouts.

Bakuchiol Oil

- Bakuchiol Oil has anti-aging properties and is known to **stimulate collagen production, reduce fine lines, wrinkles and improve elasticity**.
- Bakuchiol Oil has **antimicrobial and anti-inflammatory** properties that are known to reduce acne breakouts.
- Bakuchiol Oil provides **similar anti-aging benefits to retinol** without the potential for irritation or photosensitivity.
- Bakuchiol Oil is **skin brightening, improves skin tone and reduces hyperpigmentation** by promoting cellular turnover and inhibits melanin production.
- Bakuchiol Oil **hydrates the skin**.

Raw Local Honey

- Raw Local Honey is packed with components beneficial for your skin, especially if you have acne and/or autoimmune skin conditions such as psoriasis or eczema.
- Raw Local Honey helps **balance the bacteria** in the skin. Honey speeds up the skins healing process.
- Raw Local Honey is a **natural exfoliant**, which helps reveal the skins natural brightness.
- Raw Local Honey is known for its **anti-bacterial, anti-microbial and anti-inflammatory** properties.

Jojoba Oil

- Jojoba Oil is a **humectant** and attracts water to the top layer of the skin, helping to keep the skin hydrated.
- Jojoba Oil is **similar in composition to the skins natural oils**, making an excellent moisturizer.
- Jojoba Oil contains **antimicrobial and antifungal** properties.
- Jojoba Oil is **noncomedogenic**, which is known to not clog your pores.
- Jojoba Oil is an **antioxidant that is rich in vitamin E**. The antioxidants in Jojoba Oil also help to **promote collagen synthesis** and reduce fine lines and wrinkles.
- Jojoba Oil protects the skin from free radical damage.
- Jojoba Oil is **hypoallergenic**.
- Jojoba Oil helps control sebum production.

Castor Oil

- Castor Oil is known to be the **deepest penetrating oil**.
- Castor Oil is rich in fatty acids like **linoleic acid**.
- Castor Oil has **anti-bacterial and anti-microbial** properties to **help fight acne and reduce inflammation**.
- Castor Oil **moisturizes, hydrates and softens the skin**. Castor Oil is also great for wound healing.
- Castor Oil contains **antioxidants** that fight free radicals in your body and reduces fine lines and wrinkles.

Rosehip Oil

- Rosehip Oil is **rich in antioxidants, such as vitamin C, E and beta-carotene**. These antioxidants may help protect the skin from free radical damage.
- Rosehip Oil contains **essential fatty acids, including linolenic acid** that help to hydrate and moisturize the skin reducing dryness and improving elasticity.
- Rosehip Oil has **anti-inflammatory** properties that can help soothe and calm irritated skin.
- Rosehip Oil is also believed to promote skin regeneration and healing. It can also potentially help reduce the appearance of scars.
- Rosehip Oil contains **vitamin A**, which can help improve skin tone and reduce hyperpigmentation.

Frankincense Oil

- Frankincense Oil has **antiseptic and anti-inflammatory** properties which may help in healing and visibility of wounds, cuts and scars.
- Frankincense Oil may help soothe irritated skin, reduce redness and potentially alleviate symptoms of conditions like eczema, acne and psoriasis.
- Frankincense Oil may help reduce the appearance of fine lines, wrinkles and age spots by promoting cell regeneration and protecting from free radical damage.
- Frankincense Oil contains **boswellic acids**, which have **anti-inflammatory** properties.
